OFFICE OF LEGISLATIVE COUNSEL

Friday - 14 April 1972

1. [REDACTED] FBIS, reported that a 25X1
Mr. James L. Gallagher, Research Analyst on the Minority Staff of the
House Internal Security Committee, visited the Joint Publications Research
Service the other day to request several materials for the Committee's use.
During his conversations with [REDACTED] there was no mention of 25X1
any Agency relationship to JPRS but Mr. Knocke feels it would be wise to
inform him of the connection to avoid any possible misunderstanding. I
told [REDACTED] we would be in touch with Mr. Gallagher or alert a 25X1
senior member of the staff to the situation.
2. [REDACTED] OER, called to say State 25X1
Department had asked our permission to pass to several people on the Hill
copies of an Agency intelligence memorandum [REDACTED] 25X1
I suggested to Wagoner that they determine which members of Congress were
involved and we would then give them an answer. He said he would do this.
3. [REDACTED] Met with Mrs. Helen Lawson, Secretary 25X1
to Senator Henry Bellmon (R., Okla.), and left with her a number of maps of
the Headquarters' location for use by the Senator's breakfast group which is
scheduled for 27 April 1972.
- [REDACTED] 25X1
5. [REDACTED] Met with Ralph Preston, House Appropriations 25X1
Committee staff, who told me that the Committee schedule has his time
committed through the middle of next week. He does want to visit Headquarters
for review of the Agency budget book and will try to schedule Thursday or
Friday, 27 or 28 April, to meet with us. Mr. Briggs, OPPB, has been advised.
